**LCZ-Z Two-drum All-steel
Radial Tire Building Machine**

LCZ-Z Two-drum All-steel Radial Tire Building Machine

Equipment Features

The equipment is for building all-steel radial tires, with high efficiency, good quality and quick size change. The system is in conformity with CE requirement, with emergency stop button, pull rope, safety switch, safety fence, etc and also safe design in the program.

Applicable Tire Sizes

R16-R24.5(R16-R20/R20-R24.5).

Capacity

60-80 tires/shift.

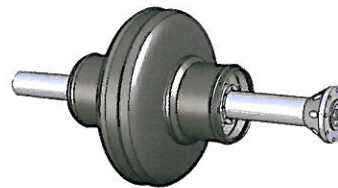

⊙ Shaping Drum

Items		Min.		Max.
Bead Distance	[mm]	240		940
Drum Positioning Precision	[deg]		± 0.25	
Bead Positioning Precision	[mm]		± 0.10	

Mechanical turn-up shaping drum

Bladder turn-up shaping drum

⊙ Belt Drum

Items	Min.	Max.	Width
Dia. of Belt Drum for Light Truck Tires [mm]	680	1030	450
Dia. of Belt Drum For heavy Truck Tires [mm]	890	1150	450

Belt Drum

⊙ Magnetic Dead Adsorption, Transfer Ring

Items	Min.	Max.
Bead Transfer Ring for Light Truck Tire	16"	20"
Bead Transfer Ring for Heavy Truck Tire	20"	24.5"

Bead Transfer Ring
